Grown-up notes and answers

1. In the patch of shade beside the tree.
2. Sunshine.
3. Where the shade is now.
4. Yes. The conditions change later.
5. Help moving the mat.
6. Accept a simple drawing showing that a useful place can change, not an exact shadow diagram.
7. Do not look at the sun, leave supervision or stay in heat. Changes are optional observations, not guaranteed on demand.
8. Her reading page. Moving the place does not require starting the story again.
